REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The instant claims are directed to a propylene homopolymer satisfy a specific set of properties. As shown in the previous Office action mailed December 14, 2004, Gauthier et al. (Macromolecules 1995, 28, 3771-3778) teaches a propylene homopolymer prepared in the presence of a metallocene catalyst. While Gauthier indicates the propylene homopolymer satisfying some of the properties of the instant claims, Gauthier is silent on properties such as soluble content in hexane at 25 °C (H25). Because Dr. Okamoto's Declaration of June 14, 2005 has shown that Gauthier's polypropylene does not meet all of the limitations of the instant claims such as H25, Gauthier's H25 is >99 wt% which is not in the claimed range of 0-88 wt%, Gauthier's polypropylene is different from the polypropylene of the instant claims. Therefore, the instant claims are deemed to be novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
